Bids Are Asked As More Freeway On US 40 Is Proposed

The state division of highways today advertised for bids on construction of 5.4 miles of four-lane freeway on U. S. 40 in Placer and Nevada Counties, which will extend from 0.8-mile west of Emigrant Gap, where it will connect with a completed freeway, east to the junction with State Sign Route 20 about three miles west of Cisco, according to officials at the Marysville district office.

Bids will be opened June 21 with $7,300,000 in state highway funds available for the job.

With the start of work on this project, only one section of U. S. 40 between Sacramento and Nevada will remain on which freeway or expressway is not completed or under construction—the 6.3-mile stretch adjoining the above section—from three miles west of Cisco to Hampshire Rocks.

The division today also called for bids on a 1.1-mile frontage road which will connect to the future freeway on this remaining section. It will serve the relocated Big Bend camp ground, and will hook up with the freeway about two miles west of Cisco.

Bids for this job will be opened June 14 with $175,000 available in state highway funds.

Truckee's Airport In Federal Plans

Construction of two new airports, including the Truckee-Tahoe field near here, and improvements of 26 others in the 19 counties of the Second Congressional District have been recommended to meet the region's needs over the next five years, Congressman H. T. Johnson reports from Washington.

These projects are contained in a five-year national airport plan presented to congress by the federal aviation agency. Inclusion in the plan is a prerequisite to qualification for federal matching funds for development of these fields.

This means that the FAA has recognized officially the need for these fields in 27 communities of Johnson's district.

It should be noted, Johnson said, that inclusion of projects in this plan does not obligate either local or federal government to proceed with the work.

The new airports recommended for federal assistance include construction of the local field with a 5,200-foot runway with about 25 private planes expected to be based here, and one at Roseville with a 3,100-foot runway.

Previously it was announced that funds have been made available for construction work at the Truckee-Tahoe Airport and work is expected to be started as soon as this matching fund is made available.

This Tahoe City store is unique from any other Safeway store, or any other supermarket for that matter. It has been designed with its location in mind and is constructed of glass, stone and redwood and looks more like a hunting lodge than it does a supermarket.

The store which is a part of a shopping center, is flanked on one side by the beautiful lake and on the other by the state park and camp grounds. A rustic fence has been constructed between the parking lot and the state park and for the convenience of shoppers and visitors alike, a stile has been built over the fence which permits visitors and shoppers from the park and camp grounds to cross over into the shopping center.

The board hopes to be able to have the election for annexation scheduled for August 1.

It was pointed out that particularly during the winter months when skiing is at its height, a large percentage of patients treated at the hospital come from the Squaw Valley district and the annexation will provide this service and convenience for that region.

STRIKES & SPARES

BY JOE WILMAN

SLOW DOWN FOR STRAIGHT ARM SWING

"Crooked Arm Charlie" didn't actually have a crooked arm, but his arm swing in bowling certainly resembled a crooked arm. Charlie's arm swing was so crooked that the finishing position of his hand in the follow-through was somewhere up over his left shoulder, instead of head-high in front of him as today's illustration shows.

Charlie's crooked swing and consequent crooked delivery came from rushing his arm swing. His footwork was pretty fast, and he had developed the habit of rushing the arm swing to keep up with the footwork.

In forcing his arm swing to keep up with his fast footwork, Charlie pushed his arm back with no regard for keeping it straight. He brought it forward the same way, and many times he didn't even let it reach the top of the backswing.

The first piece of advice I gave Charlie was to slow down both his footwork and his arm swing. We tried walking through it a few times slowly to let him see where his arm swing should be at each step of the delivery. After a couple of sessions, like this, tying together the movements of his feet with his arm, "Crooked Arm Charlie" has a new nickname.

Now they call him "Sure Shot Charlie."

Plans are being made to visit the youth group at United Church of Christ and to present a skit "The People versus St. Peter."

Dances will be sponsored by the group throughout the summer to earn money for convention trips and other youth activities.

North Shore Volunteers — part and parcel of the North Tahoe Fire Protection District — proved their worth last week. The volunteers and assistant, Audrey Welch, responded to the F. D. Gurney home in Kings Beach when daughter, Christine, 4½ years, old, suffered a convulsion and stopped breathing. Mouth to mouth resuscitation before the doctors arrival saved Christine's life. Sudden rise in temperature caused the seizure and last report, she is progressing satisfactorily.

Guest of honor at a miscellaneous bridal shower at the home of Kaytie Corbin of Kings Beach was Penny Hulbert (who was married to Steven Frost last Sunday).

Guests were Mary Mandeville, Mickie Mandeville, Nellie Porath, Audrey Harrison, Noeleen Wilcks, Joan Decker, Rose Baker, Evelyn Whitehead, Vonnie Jones, Lucille Hiatt, Jill Shaffer, Unadell Crawford, Kay Wing, Shirley Robinson, Jetta Steward, Dorothy Corbin, Peggy Hulbert, the hostess and honoree.

The table was decorated with white stock and lavender tule. Open face sandwiches, punch, coffee and tea were served with the beautifully decorated cake—decorated with entwined hearts spelling "Steve and Penny."

With taxes taking the foremost thoughts in this area the past week, perhaps it would be well to look further afield to another matter that directly affects the residents of the north shore—and not only the north shore.

ROOM TAX. The California Motel Association has long opposed this measure. However the San Francisco County Board of Supervisors on April 17 voted in favor of a transient room tax to take effect July 1. Three per cent tax will apply to all San Francisco city and county motel and hotels.

For more information, phone your local California Motel Association, Bill Elliott, LI 6-3523 or LI 6-3842.

Rotary Club guests on May 22 will be B. A. "Barney" Campbell, resident engineer for the state division of highways for the Highway 28 project (Dollar Hill to Nevada stateline on Brockway hill) and district construction engineer Donald McCollum and Hank Carder, superintendent for Madonna Construction Company.

Conduits, pipe or culverts should be installed now by property owners before the new pavement is constructed. Permits for work of this nature must be obtained from Mike Willett who is in charge of encroachment permits for the division of highways, either at Mr. Campbell's office or the Tahoe City maintenance station. The highway will be kept open at all times although there will be interruptions by flagmen controlling traffic. However, delays will be kept to a minimum. Questions will be answered by Messrs. Campbell, Carder and McCollum.

Women's Society Christian Service has set June 16 and 17 for a rummage sale at the Kings Beach Community Church.

More summer residents returning to the area everyday—Mr. and Mrs. G. D.Simmons are back from Glendale at their Tahoe Vista trailer parkand starting a number of projects before the season gets under way.

Henry and Hertha Stiefeling back to Tahoe Vista and their resort for the summer.

George and Margaret Mino from El Cerrito back to Tahoe Vista and summer resort.

Al and Clair Bettencourt from Los Gatos returned for the season to Tahoe Vista and a busy summer is indicated — new addition being built and reopening.

Lloyd and Alice Hall back from the southland, Bellflower, and settled in their new Kings Beach location—Hall's Haven.

The Eddie Dillons are back from Palm Springs to Kings Beach and the North Shore Club.

Mark O. Corley's arrival on May 9 in Sparks has made an aunt of Maxine Polzin and grandmother of Theresa Denton, Incline Beach residents. Parents are Mr. and Mrs. Robert Corley and their first—weighed 8½ pounds on arrival.

Dave and Kathleen Kindred are planning on permanent residence at Incline Beach. Son Davis and Mary Lou are new residents of Tahoe Vista and although already reported forgot children Kathy Sue, 4, and Cheryl Ann, 2, brother David is in the first grade. Welcome to Tahoe.

Tom and Theresa Sutton of Kings Beach visited the William Peluso family of Lafayette last weekend. The Suttons, Pelusos and John and Jerri Rayburn of Incline Beach all met in Sacramento for Mother's Day.

Lillian Leon of Sepulenda is visiting son and wife at Kings Beach, Dick and Rainey Leon.

Kathy Barkhurst of Brockway is home after hospitalization.

Bonita Jones of Brockway is recueprating from hospitalization at Carson City.

Speedy recovery to both of you.

The David Mays of Incline Beach will visit daughter and her husband Gary and Joyce Whitezell at Bakersfield this coming week.

Guests of Chris and Tom Hoffman and children of Tahoe Vista were Bert and Wilma Parks and children Doug, Bruce and Laurie of Sacramento.

Shuffleboard, anyone? Ping pong, wading pool, fenced in playground, swimming pool in the offing, and a Friday night chuck wagon for their guests—all being added to Bonnie Beach Resort in Kings Beach according to Thelma Scriver. What more could one ask?

Back to Crystal Bay after spending the winter in Florida, New York, Los Angeles, are the Wingie Grobers. Getting ready for Cal Neva opening in the near future—no comment now, but sounds like a promising summer.

WERNER IS NAMED DISTRICT WATER MAN

SACRAMENTO — Director William E. Warne of the state department of water resources today named Carl A. Werner district manager of the department's new central district office.

The district will include all of Plumas, Sierra, Yuba, Nevada, Placer, El Dorado, Sacramento, Amador and Alpine Counties, and portions of Butte, Sutter, Colusa, Lake, Napa, Yolo, Solano, Alameda, San Joaquin and Calaveras Counties.

VERY YOUNG, OLDER CAUSE ACCIDENTS

The very young and the older person are most susceptible to pedestrian accidents, California Highway Patrol statstics for 1960 indicate.

A total of 286 persons, or 37 per cent of the 764 pedestrians who met death in traffic accidents last year, were 65 years and older. One-fifth of the deaths, or 145, were youngsters under 10 years of age.

"These figures hold significance for both motorists and pedestrians," pointed out Patrol Commissioner Bradford M. Crittenden.

"The driver should be alert for the child who may unexpectedly appear in the street. The danger is particularly high in school zones and residential districts. The motorist also must maintain vigilance for the older person, who may take a few extra seconds in crossing.

"For the pedestrian, the watchword should be 'caution.' At night the dangers are increased, since visibility is lowered for both driver and walker.

"Parents, too, have the responsibility to instill in their children a sense of alertness concerning the dangers of motor vehicle traffice," the commissioner concluded.

Fifty-two different kinds of rockfish are found in Pacific coast fishing waters.

A single 611-page telephone directory serves the entire Republic of Ireland.

ZENITH 1-2000 USED ONLY IN EMERGENCY

ZEnith 1-2000.

Remember that number if you must report a traffic emergency.

But don't use it if your call is not of an emergency nature, reminded California Highway Patrol Commissioner Bradford M. Crittenden this week.

"The ZEnith 1-2000 number is reserved for reporting traffic accidents and other roadway emergencies. If you use that number for routine calls, you may block the line just when someone else is attempting to call in an emergency."

Commissioner Crittenden said that to report an emergency, just dial the operator and ask for ZEnith 1-2000, telling her you want to report an emergency. She will connect you with the nearest highway patrol office. This procedure should be followed to report accidents in unincorporated areas and on most freeways. Accidents within cities usually will be handled by municipal police agencies.

If in doubt, call ZEnith 1-2000, and the patrol will dispatch an officer, or notify the proper agency.

DATES ARE SET FOR GIRL SCOUTS CAMP

Summer Day Camp for Brownies and Girl Scouts of this area will be held from June 26 through June 30 at Camp Noel Porter, just south of Tahoe City. A Girl Scout council bus will take the Truckee campers to and from the camp site.

Registrations and registration fee must be turned in to leaders by May 15.

All Brownie and Girl Scout parents are invited to the May Neighborhood meeting at Camp Noel Porter on Tuesday May 16 at 10 a. m. so they can inspect the grounds and have any questions answered.

Rainfall along the California coast ranges from an average of ten inches at San Diego to 80 inches at Crescent City.

WHAT'S DOING

L. R. deGallery, your Telephone Manager in Tahoe City

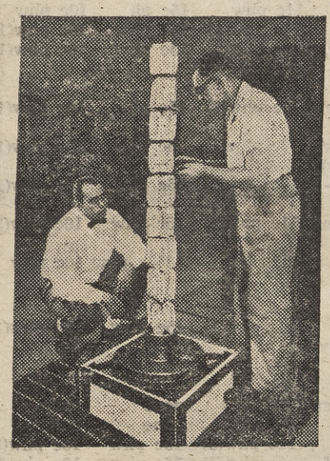
PROGRESS IN LAKE TAHOE

Sometimes progress in business activities isn't too clearly seen. We at Pacific Telephone are proud to give some progress reports for this area, for it will show where each new person coming into the area will be able to receive the same good service now serving our present customers.

Since 1954 when Lake Tahoe, Truckee and Soda Springs had approximately 2,000 telephones, the number has increased to 8,200 telephones in 1960. In 1954 we handled 7,400 calls per day from Lake Tahoe and surrounding areas, but in 1960 we handled some 32,700 calls per day which is an increase of 342%.

This is an indication of what The Pacific Telephone Co. has faced and quietly taken care of with little interruption in overall operations. There are many plans to further development and improve our local area service. It will not be an overnight development but each coming year will show more improvement. The February 1961 estimate for construction expenditures alone in California shows $303,900,000. Lake Tahoe and the surrounding area have received its share in construction. The 86 employees of Lake Tahoe are happy to be able to serve our customers with the latest in Telephone equipment.

* * * *



A "rock factory" in which man, not Mother Nature runs things, has recently gone into operation. It belongs to Western Electric, the manufacturing branch of the Bell System, and the rocks produced are quartz crystals.

Thin slices of quartz crystal are used in several types of telephone equipment. While there's lots of natural quartz in the world, big crystals that can be sliced are scarce and expensive.

To get around this, Western Electric is using a unique process to "grow" large crystals from small, inexpensive pieces of quartz. The man-made crystals (above) cost a lot less than large, natural ones. And because they are more evenly shaped, twice as many usable slices can be cut from them.

With vacation time nearly here, most folks are busy deciding where to go this year. Almost anywhere you head, you're apt to meet lots of other vacationers, and good accommodations may be scarce.

There's an easy remedy, though: just call ahead for reservations. It takes only a few minutes and can save you lots of time hunting for a vacancy.

STORE OPENS

pole, hand-carved by Barney West, emmminent California sculptor, from a giant redwood.

Interest in the Totem pole has been keen and hundreds of visitors and curious onlookers watched as the Totem pole "grew." Today it stands majestically near the store topped with a 9 foot revolving "S."

The figures on Safeway's Totem pole are authentic copies of figures from several different Indian poles. There is the bear mother, and the beaver to name a couple, and of course Safeway's signature.

The store itself is a part of a shopping center and the massive Glu Lam beams were calculated to support the extremely heavy snow loads. A high glass clerestory on the east wall over the checkstands opens up the front to the panorama of lake, trees and mountains. The Indian theme of the Totem pole outside, is continued in the store with a huge mural and beamend designs depicting Indian lore, by artist Andre Boratko of Oakland.

The store has an area of 16,400 square feet and the interior has been given special treatment to suit the area. For instance the bakery section, a non-food area and the barbecue section of the meat area all are housed in alcoves opening off the main sales room. Everything can be seen at a glance and the carefully planned arrangements will save steps and contribute to ease of shopping. For instance the double rows of cases in the center of the building will carry the main stock of grocery items.

The meat department is of the self-service type with meats cut and wrapped in full view of the public. Special cuts will be available by speaking to one of the employes. This department contains 56 feet of meat cooler cases and large meat freezer cases and refrigerated storerooms.

The produce department contains 52 feet of cooler cases for the display of fruits and vegetables and 88 feet of frozen food cases.

The dairy department contains 24 feet of dairy cooler cases and 24 feet of ice cream freezer cases with a large dairy cooler box.

A new feature found in this store will be a gourmet department. This has been added because of an insistent demand for those tastebud delicacies, those exotic foods that many want to try on their friends.

As in all of the new stores, there is a fire sprinkler system, central heating, air conditioning and fluorescent lighting. For convenience of the customers, the store includes automatic doors, a cashier's booth and public telephone. The store manager will be able to speak to employes at any part of the store at any time by means of an inter-communication system.

Six high speed checkout stands which are located along the east wall.

Finally, because of the proximity of the store to the lake and for further convenience of our customers, a boat dock has been constructed. This dock is 108 feet long with facilities for 18 to 25 boats. The dock is illuminated by night for the safety and convenience of late shoppers. A cement sidewalk leads from the boat dock to Safeway's parking lot.

The Pollack Construction Co. of Sacramento was the general contractor with the design by Tod Hart, AIA, of Sacramento.

MUSCLE AND BRAWN MAKE A **LAND CRUISER**! IT'S POWERED BY TOYOTA'S 135 H.P. SPIRITED SIX ENGINE AND HAS A RUGGED 6-SPEED TRANSMISSION TO MATCH! NOW SEE FOR YOURSELF WHAT A **LAND CRUISER** CAN DO, THIS WEEKEND.

TRY AND DRIVE THE WHEELS OFF A LAND CRUISER!

What's the use of pampering a vehicle built for *service*? A LAND CRUISER has to be tough or it wouldn't be first in the field in 64 countries. Come and prove to yourself that the LAND CRUISER's got all other 4-wheel drive vehicles beat.

Look under the hood. Kick the frame. Rev the engine. Drive a LAND CRUISER beyond all normal endurance. Whatever the test, the LAND CRUISER can make it and take it! It's the world's most powerful all-purpose 4-wheel drive vehicle.

RANCHER

What a workhorse! The LAND CRUISER's muscular motor develops almost twice the horsepower of its nearest competitor, giving you extra power for hauling or hustling and a power take-off is available to do everything else!

CONTRACTOR

Which comes first—the vehicle or the road? The LAND CRUISER comes and goes, ignoring the beaten paths. It'll do 85 mph on the highway or take 6 passengers where nobody's been before!

SPORTSMAN

Best friend a hunter or fisherman ever had! Now you can go wherever the game goes—and take your friends too. Soft-top and hard-top models.

FAMILY PICK-UP

Kids like to go trail blazing, too. The LAND CRUISER will cart a wagon-load of youngsters to the beach or camping. Easier parking when you get there because the LAND CRUISER has a smaller turning radius than its competitors.

This weekend take it to task yourself. Bring the family—there's plenty of room in a LAND CRUISER.

Unchanging beauty is a theme of the lesson-sermon "Soul and Body" to be read at all Christian Science churches Sunday.
Included in the Bible selections will be these verses from Psalm 90: "Let thy work appear unto thy servants, and thy glory unto their children. And let the beauty of the Lord our God be upon us: and establish thou the work of our hands upon us; yea, the work of our hands establish thou it."
One of the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (pp. 247, 248): "the recipe for beauty is to have less illusion and more Soul, to retreat from the belief of pain or pleasure in the body into the unchanging calm and glorious freedom of spiritual harmony."

DONNER DOINGS

By VIRGINIA O'BEAR

Many of us are wondering if summer will ever get here. Just when we start getting out our swim suits with high hopes of going for a swim, it starts snowing again. The past few days have been very nice so maybe it will continue, we hope.

* * *

You can hear and see anything at Donner Lake. Last week I was busy doing my column and writing a few letters and missed the house that was moved down the highway from Rex Reid's to Dick Swanson's Realty. Everyone asked "Where were you when the house went down the road?" Well, maybe from now on I'll do my work out on the sun porch. Last year everyone was chuckling over the speedboat going down the highway and come to find out, it was being pulled by Dick and Jean Walker's little Volkswagen, which couldn't be seen over the boat from behind.

* * *

Several Donner Lake ladies journeyed over to Harrah's Club last Thursday to attend the "Queen for a Day" show. Mesdames Roy Slate, Dan Horman, Charles O'Bear, Roger Brown and Doris Davis enjoyed the delightful day and if one had one, the Donner Lake Volunteer Fire Department would have had a resuscitator, a septic tank and a new bathroom.

Mrs. Walter D. Brodie arrived recently from St. Paul, Minnesota and will spend a few weeks with her son and daughter-in-law, Dr. and Mrs. Douglas Brodie. Her husband will join her in a few weeks as soon as he makes arrangements with his practice then the Doctor and Mrs. Brodie will continue their California vacation for a few more weeks. I imagine that "proud" grandma is having a wonderful time with John and the newest member of the family, little David.

* * *

The Donner firemen were called out early Sunday morning around 4 a. m. to a fire. It was across the lake at the Vaughn home and was quickly extinguished and the home was saved and no damage done. It was a fire around a fireplace which was on wooden studding so the firemen picked the fireplace up with a furniture mover and hauled it out on the patio. This might serve as a warning so everyone can check to see if their fireplaces are built on wood or cement blocks, etc. After the fire was completely out, the firemen had coffee and donuts at Donlac Coffee Shop.

* * *

Mrs. Rex Reid and Mrs. Henry Slack are in Sacramento this week for the Rebekah Assembly. They are the representatives from our area and I am sure they will have an enjoyable time. Bess and Rex enjoyed having Larry home from Hawaii as he was on leave and last week the Slacks returned from their annual vacation, taken about this time each year.

* * *

The Auxiliary of the Donner Lake Volunteer Fire Department will meet this Thursday evening at Cozzi's. The dinner will start promptly at 7:30 and everyone is urged to be on time as we have an honored guest, Dr. Douglas Brodie. He will explain the procedure of mouth to mouth resuscitation and procedures used for respiratory cases. Hostesses for the month are Eleanore Fulcher, Mildred Johnson and Joyce Laugenour. The dining room will be closed to the public so the auxiliary members should have a very enjoyable evening. Plan to attend and take a new neighbor. The time is 7:30 at Cozzi's on May 18.

* * *

Our six lovely girls have been invited to be in the Reno parade June 17. Miss Donner Lake, Sandra Van Sickle and her court will appear on a beautiful float to advertise the whole area and the Donner Lake Regatta. On July 1, all six will be on the Bill Rase show from 4 to 5 p. m. Many other local appearances are scheduled for the girls and so far they are having a wonderful time. They enjoyed the cleanup Saturday in Truckee.

ACCUSED KIDNAPPER ARRESTED AT TAHOE

Placer County Sheriff's officers at Lake Tahoe were credited last week with the capture of Harlen Harmon, 18, a parolee from Medford, Oregon.

Harmon was being sought by Nevada authorities on charges of armed robbery and kidnaping.

Lieutenant Robert Moustris received word the suspect had obtained passage in a taxi on the north side of Lake Tahoe and was heading south. Moustris set up a road block at the Tahoe Wye at Tahoe City by simulating an auto accident.

The cab driver unaware that his fare was a fugitive stopped at the scene, and the cab was converged on by Lieutenant Moustris along with Deputies Max Bennett, Howard Carnell, Ed Hunt and Adam Sabat.

Harmon offered no resistance. At the sheriff's office, he admitted three service station holdups in Carson City and Reno. He was also identified as having held up and robbed a Reno couple, Mr. and Mrs. Ralph Hash.

The couple told police a young man came to their door and asked to use the telephone. Pulling a .38 caliber revolver he forced the couple to make a search for money in their home. Harmon then forced the couple to drive him north of Reno where they were forced to get out of the car.

Don Gaspar de Portola and his soldiers were the first to glimpse San Francisco Bay from nearby hills on the south.

MEMPHIS (FHTNC)—Henry K. Outram, airman apprentice, USN, son of Mr. and Mrs. Joseph E. Outram of Tahoe City, was graduated, April 14, from the two-week aviation familiarization school at the naval air technical training center, Memphis, Tenn.

PATIENCE ADVISED IN SAFE DRIVING CODE

That patience should be among the attributes of a careful driver is emphasized by the number of accidents resulting from right of way violations, California Highway Patrol Commissioner Bradford M. Crittenden pointed out this week.

"Right of way violations were responsible for approximately one of every seven accidents in patrol areas last year. They were the second leading accident cause.

"There are two primary reasons; impatience, which propels drivers into danger situations they ordinarily would avoid, and carelessness in judgment of such factors as the speed of oncoming vehicles or cross traffic," the commissioner said.

"The driver who illegally usurps the right of way always endangers at least two persons, himself and the driver who actually had a right to the road at that moment.

"Patience in making maneuvers which occasonally prescribe a few moments wait, such as left turns and entry onto busy streets, and careful judgment of movements which take your automobile through the normal path of another vehicle, pay a two-fold dividend," he said.

"You protect not only the other driver, but yourself, from serious injury or death."

IMMUNITY FOR NEWS REPORTERS FAVORED

SACRAMENTO—(CNS) — Governor Edmund G. Brown has made it "crystal clear" that he does not favor removing from newspaper reporters their immunity from disclosing confidential news sources.

Brown told a capitol news conference he also would favor extending the non-disclosure exemption to includes newsmen from television and radio stations.

The governor thus put him in square opposition to Senator Hugo Fisher, San Diego, who has announced plans to attempt to amend a bill to all but wipe out the non-disclosure immunity newspapermen now enjoy. Fisher's amendments, to AB65 by Assemblyman Tom Carrell, San Fernando, would permit a judge to determine if a reporter should be required to disclose his source. Fisher admitted such a law could have wide interpretation.

SAN LUIS FIRM WINS STATE HIGHWAY JOB

The state division of highways received a low bid Wednesday of $88,890 for the resurfacing of nine more miles of highways at three locations in Nevada and Placer Counties, according to officials at the Marysville district office.

Madonna Construction Co. of San Luis Obispo was lowest of four bidders.

The project will include repaving of the existing widths at 1) the 2.5 miles of U. S. 40 in Nevada County from the junction of State Sign Route 20 east to the Placer County line; 2) the 3.8 miles of U. S. 40 in both counties from Soda Springs east to the Donner Summit; and 3) State Sign Route 28 from the junction of SSR 89 in Tahoe City to 2.8 miles east at the Dollar Grade near Lake Forest on the Tahoe north shore.

TAX RATE IN COUNTY IS CLASSIFIED LOW

SACRAMENTO (CNS) — Nevada County levied a total of $2,354,000 in property taxes during 1960-61. the state board of equalization reported.

The taxes were collected on an average tax rate of $5.70. The tax rate compared with a statewide average of $7.42 and ranked the county as 44th in amount of tax rate.

GROUND CLEARANCE FOR SAFETY IN CARS

A little-publicized reason for existence of the vehicle code section which sets minimum ground clearance limits for passenger vehicles was emphasized in a statement this week by Lieutenant O. P. Ledford, officer-in-charge of the Truckee Substation, California Highway Patrol.

"The life of a child could very well hinge on this law," Ledford pointed out.

"Suppose you are proceeding at lawful speed through a residential area when a child dashes in front of your car. It is impossible to stop, and your vehicle strikes the child. Since the youngster's body is no higher than the hood, the child almost always will be thrown to the ground.

"Stock cars ordinarily have sufficient road clearance to allow the vehicle to pass over a body. If the child survives the initial shock of being struck, it is possible that his life will be spared if the vehicle passes over him without touching him.

"But vehicles which have been lowered below the legal limit invariably will drag and mangle a body, inflicting fatal injuries."

The law provides that the lowest portion of the vehicle other than the wheels shall not be closer to the ground than the lowest point on the wheel rim.

INCREASED LIMIT ON SPEED IS PROPOSED

SACRAMENTO—(CNS) — Legislation has been introduced in the assembly to increase the maximum speed limit full freeways from 65 to 70 miles per hour.

The bill, AB2409 by Assemblyman Myron H. Frew, Dinuba, authorizes use of radar for "positive control" of the top speed.

The bill also increases the speed limit for certain trucks from 50 to 60 miles per hour and for vehicles pulling trailers from 45 to 60 mph.

Frew said he voted against the bill to make the top speed 65 mph when it passed the legislature in 1957 because he felt it was not realistic.

"I am simply attempting to make legal, the average speed of the cars and trucks on the highway today," Frew said. "I am firmly convinced that with a realistic top speed limit and positive control we can reduce highway accidents."

Frew said he did not want the bill passed if the radar provision is not included. He said the highway patrol was in favor of the 70 mph limit in the bill in 1957.

In terms of gross income, California leads the nation in turkeys, sheep and eggs, and is third in milk and wool.

JUVENILE RING AT TAHOE BROKEN UP

TAHOE CITY — A ring of juveniles was broken up last week by Placer County Sherriff's deputies at Lake Tahoe.

The youths ranging in age from 12 to 18 years admitted breaking into numerous summer homes in the area and obtaining liquor.

Citations were issued after deputies discovered a youth near the scene of one of the breakins, and he admitted participating and implicated the others.

Two recent investigations centered around John H. Bosche's Kings Beach summer home and the Brockway Hill area home of Mrs. Frances Wallace.

Four youths were cited and remanded to juvenile authorities and two of the boys were turned over to their parents.

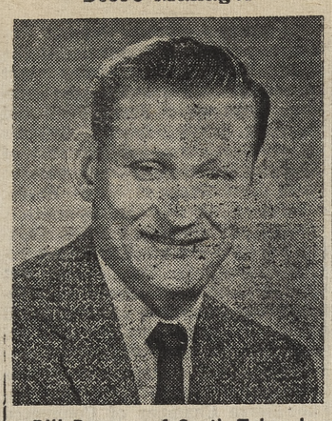
Store Manager



Bill Ransom of South Tahoe has been named as store manager by Safeway Stores for the new Tahoe City branch opening soon.

New Riviera Store To Open At Tahoe

TAHOE CITY — A champagne reception from 10 a. m. until 5 p. m. Saturday will mark the opening of the new Riviera Shop at Tahoe City. Casual modeling will be continuous throughout the day and there will be free drawings for new styles of Rose Marie Reid swim suits.

Palmer claims that nothing in San Francisco, Paris or Rome equals the little shop which will be unveiled Saturday. It is described as one of the most beautiful small stores in the world and is a masterpiece of simplicity.

The famous designers of homes and ships, K. H. Lengfeld and Company of San Francisco were the designers of the colors and proportions used and personal credit goes to Mack McDowell of San Francisco for the "boutique" look attained. All the furniture was custom made by designers in the bay area and hauled to Tahoe where they were reassembled.

As a result of the Riviera's owners, John and Jeanne Palmer spending four months in Europe last winter, the store's motif is very continental, particularly Italian. In that country many of the items to be shown for the first time Saturday were "hand imported" by the Palmers.

Another import is the store's manager, Juliana Nardelli, who recently completed her studies in Spain at the University of Madrid and in France at Sorbonne and specialized in fashion designing centers of Paris and Rome.

APPEAL MADE FOR POPPY SALE AIDES

KINGS BEACH — Pearl Draney, president of the Ladies Auixilary to V. F. W. Post No. 7077, Lake Tahoe, directs a special appeal to the heads of local women's groups for volunteer workers for the V. F. W. and auxiliary annual sale of Buddy Poppies which will be held in the Kings Beach, Crystal Bay, Tahoe City area on Saturday, May 27, from 9 a. m. until 5 p. m. Assistance of women who can devote two hours or more is greatly needed.

The annual sale of Buddy Poppies provides funds needed to carry on the post and auxiliary's welfare and relief work. The proceeds are devoted exclusively to welfare and rehabilitation activities.

Those who work in the campaign and those who contribute by buying Buddy Poppies are making a patriotic contribution to the cause of veteran welfare by "Honoring the dead by helping the living," Mrs. Draney said.

Volunteers who would like to assist in Buddy Poppy day are asked to call Chairman Pearl Draney, LIberty 7-2407.
